

Oregon achieves . . . together!

# **OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21**

# Updated 12/7/2020

Under ODE's **Ready Schools, Safe Learners** guidance, each school<sup>1</sup> has been directed to submit a plan to the district<sup>2</sup> in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the <u>Ready Schools, Safe</u> <u>Learners guidance</u> document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,<sup>3</sup> parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation.

# 1. Please fill out information:

SCHOOL/DISTRICT/PROGRAM INFORMATION		
Name of School, District or Program	Crater Lake Academy	
Key Contact Person for this Plan	Stephanie Pogue	
Phone Number of this Person	541-879-3620	
Email Address of this Person	pogues@craterlakecharter.org	
Sectors and position titles of those who informed the plan	Executive Director/High School: Stepahnie Pogue Elementary Director/Curriculum: Troy Thorne Business & HR Director: Jonathan Bilden Business Assistant Director: Yvonne Shafer High School Lead Teacher: Tracy Huntsman Elementary Lead Teacher: Brandi Schnur Office Manager: Lisa Curry	
Local public health office(s) or officers(s)	Jackson County Public Health	
Name of person Designated to Establish, Implement and Enforce Physical Distancing Requirements	Stephanie Pogue	
ntended Effective Dates for this Plan	January 4, 2021 through June 30, 2021	

<sup>&</sup>lt;sup>1</sup> For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings. <sup>2</sup> For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

<sup>&</sup>lt;sup>3</sup> Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

ESD Region	Southern Oregon

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

Crater Lake Academy strives to support the diverse needs of students, families, and employees. All Crater Lake Academy families have been surveyed regarding the challenges and successes related to Distance Learning for All and their preferences and comfort level for both in-person and distance learning for the 2020-21 school year. This information along with data related to student engagement and success will be used to identify focal communities of students in need of targeted support.

The Crater Lake Academy staff is dedicated to placing our focal communities at the center of our planning for 2020-21 school year. Across our school, our focal students will have preference to in-person learning. Students with disabilities, emerging bilingual students and those identified as "at-risk" will have access to 4 days a week in-person learning. Remaining students will have access to a hybrid model of in-person and distance learning with full time distance learning being available for students at the request of families.

3. Indicate which instructional model will be used.

Select One:

- 4. If you selected Comprehensive Distance Learning, you only have to fill out the green portion of the Operational Blueprint for Reentry (i.e., page 2 in the initial template).
- If you selected On-Site Learning or Hybrid Learning, you have to fill out the blue portion of the Operational Blueprint for Reentry (i.e., pages 3-19 in the initial template) and <u>submit online</u>. (<u>https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a</u>) by August 17, 2020 or prior to the beginning of the 2020-21 school year.
- \* Note: Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

# **REQUIREMENTS FOR COMPREHENSIVE DISTANCE LEARNING OPERATIONAL BLUEPRINT**

This section must be completed by any school that is seeking to provide instruction through Comprehensive Distance Learning. For Private Schools, completing this section is optional (not required). Schools providing On-Site or Hybrid Instructional Models do not need to complete this section.

# Describe why you are selecting Comprehensive Distance Learning as the school's Instructional Model for the effective dates of this plan.

Jackson County does not meet the metrics for hybrid or in-person instructional models at this time. The school started with Comprehensive Distance Learning on September 9, 2020. As we continue to respond to the guidance from ODE, we plan to adhere to the exceptions for limited in-person learning and provide all appropriate opportunities available to students.

In completing this portion of the Blueprint you are attesting that you have reviewed the Comprehensive Distance Learning Guidance. <u>Here is a</u> <u>link to the overview of CDL Requirements.</u> Please name any requirements you need ODE to review for any possible flexibility or waiver. We have reviewed and planned for implementation expectations for Comprehensive Distance Learning. We are confident our plan will meet the academic conditions, operational conditions, student/family support and digital learning needs for all learners.

Describe the school's plan, including the anticipated timeline, for returning to Hybrid Learning or On-Site Learning consistent with the *Ready* Schools, Safe Learners guidance.

Crater Lake Academy will respond to the metrics the State of Oregon has required. This comprehensive Hybrid plan is the desire of our students, families and staff, but we understand that safety is the first priority for our community. As the metric data continues to rise in our county, the decision to pivot to Comprehensive Distance Learning to begin the year is necessary for planning purposes and to allow our families and staff to focus on this framework. This will be temporary and the district, with county partners, will continue to monitor the data and respond as appropriate. Below are the specific timelines for returning to Hybrid learning/On-site learning (per acceptable metric data):

Grades K-5: Comprehensive Distance Learning through February 1st. The School, in collaboration with community partners, employees and families, will make a decision at least 2 weeks prior to target date, to return to a form of in-person learning or continue with distance learning, depending on the current metric data at the time of the decision. If it is decided to continue with distance learning, a new time frame will be established in returning to hybrid/on-site learning.

Grades 6-12: Comprehensive Distance Learning through February 15th. The School, in collaboration with community partners, employees and families, will make a decision at least 2 weeks prior to target date, to return to a form of in-person learning or continue with distance learning, depending on the current metric data at the time of the decision. If it is decided to continue with distance learning, a new time frame will be established in returning to hybrid/on-site learning.

The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.

# **ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT**

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models. Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.

**0. Health Metrics for Returning to In-Person Instruction** 

#### **OPERATING WITHIN THE GENERAL METRICS**

- □ The school meets eligibility for the "Safe Harbor Clause" as they were operating with in-person instruction in compliance with previous metrics, including under any prior exceptions. Unless operating under an exception in section 0d of the **Ready Schools, Safe Learners** guidance, if the school is located in a county with metrics in the "Distance Learning" column of the metrics chart, then the school must transition to distance learning by January 4, 2021.
- □ The school currently meets the General Metrics to successfully reopen for in-person instruction in an On-Site or Hybrid (On-Site and Distance Learning) model. If this box cannot yet be checked, the school must return to Comprehensive Distance Learning but may be able to provide some in-person instruction through the exceptions noted below.

EXCEPTIONS FOR SPECIFIC IN-PERSON INSTRUCTION WHERE REQUIRED CONDITIONS ARE MET

- The school currently meets the criteria required to provide limited in-person instruction (LIPI) for specific groups of students (see section 0d(1) of the *Ready Schools, Safe Learners* guidance).
- □ The school is small and remote (enrollment ≤75) and the LPHA has established that the school currently meets the criteria required for small remote schools (see section 0d(2) of the *Ready Schools, Safe Learners* guidance).
- The school currently meets the conditions required for to provide in-person instruction under the low population density, large population county exception (see section 0d(3) of the *Ready Schools, Safe Learners* guidance).
- □ The school is eligible for an emergency waiver for in-person instruction due to the impact of wildfires (see section 0d(4) of the *Ready Schools, Safe Learners* guidance).

# **1. Public Health Protocols**

	1a. COMMUNICABLE DISEASE MANAGEMENT PLAN FOR COVID-19					
OF	IA/ODE Requirements	Hybrid/Onsite Plan				
$\boxtimes$	Implement measures to limit the spread of COVID-19 within the school setting.	Crater Lake Academy schools follow the published <u>Communicable</u> <u>Disease Guidance</u> from the Oregon Department of Education and the				
	Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19. Examples are located in the <u>Oregon School Nurses Association</u> ( <u>OSNA</u> ) COVID-19 Toolkit. Designate a person at each school to establish, implement and	<ul> <li>Oregon Health Authority.</li> <li>CLA schools also follow our district's Communicable Disease Plan.</li> <li>CLA schools follow School Board Policies GBEB, GBEB-AR, JHCC, JHCC-AR.</li> <li>CLA works closely with the Local Public Health Authority (LPHA)</li> </ul>				
$\boxtimes$	enforce physical distancing requirements, consistent with this guidance and other guidance from OHA. Include names of the LPHA staff, school nurses, and other medical	Jackson County Health and Human Services to coordinate and consult when making decisions. ● Visual screening of all students and staff is outlined in 1f.				
	experts who provided support and resources to the district/school policies and plans. Review relevant local, state, and national evidence to inform plan.	<ul> <li>Potentially symptomatic students will be isolated following guidance outlined in 1i.</li> <li>CLA's Prevention and Planning, Response, and Recovery and Reentry Protocols are outlined in sections 3a, 3b, and 3c.</li> </ul>				
$\boxtimes$	Process and procedures established to train all staff in sections 1 - 3 of the <i>Ready Schools, Safe Learners</i> guidance. Consider conducting the training virtually, or, if in-person, ensure physical distancing is maintained to the maximum extent possible.	<ul> <li>Systematic disinfection of our school spaces will occur and is outlined in sections 2h, 2j, and 3c.</li> <li>Contract tracing logs will be maintained and will be kept for a minimum of four weeks at our site to assist the LPHA as needed for each</li> </ul>				
$\boxtimes$

### 1c. PHYSICAL DISTANCING

O	HA/ODE Requirements	Hybrid/Onsite Plan
	Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the calculation. This also applies for professional development and staff gatherings. Support physical distancing in all daily activities and instruction, maintaining six feet between individuals to the maximum extent possible. Minimize time standing in lines and take steps to ensure that six feet of distance between students is maintained, including marking spacing on floor, one-way traffic flow in constrained spaces, etc. Schedule modifications to limit the number of students in the building (e.g., rotating groups by days or location, staggered schedules to avoid hallway crowding and gathering). Plan for students who will need additional support in learning how to maintain physical distancing requirements. Provide instruction; don't	<ul> <li>Classroom capacity has been determined by establishing a minimum of 35 square feet per person in each learning space. This standard also applies for professional development and staff gatherings.</li> <li>Extra furniture will be removed and stored to make as much usable space within the classroom and common learning spaces.</li> <li>Seating will be assigned to maximize physical distancing and minimize physical interaction.</li> <li>Expected physical distancing requirements will be taught and re-taught as needed using age appropriate methods.</li> <li>Physical distancing in all daily activities and instruction will be supported, striving to maintain at least six feet between individuals whenever possible.</li> <li>Classrooms, hallways, and other spaces will have visual cues (e.g., floor decals, colored tape or signs) to illustrate traffic flow, appropriate six feet spacing, and seating areas.</li> <li>Time standing in lines will be minimized.</li> </ul>
$\square$	employ punitive discipline. Staff must maintain physical distancing during all staff meetings and	Staff should maintain physical distancing during all staff meetings and conferences or meet remotely with web-based meetings. Staff shall also not congregate together for breaks or meals.

1d. COHORTING

Hybrid/Onsite Plan

<ul> <li>Where feasible, establish stable cohorts: groups shall be no larger</li> <li>✓ than can be accommodated by the space available to provide 35 square feet per person, including staff.</li> <li>The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases.</li> </ul>	<ul> <li>Daily Logs</li> <li>Staff assigned to each entry door will maintain a daily sign-in log documenting each student who enters for the purpose of contact tracing (see section 2e Logs for Contact Tracing).</li> <li>Cleaning and Hygiene</li> </ul>
Students cannot be part of any single cohort, or part of multiple Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week. Schools must plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure. Cohorts may change week-to-week, but must be stable within the educational week.	<ul> <li>All frequently touched surfaces (e.g., playground equipment, door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) will be cleaned between multiple student uses, even in the same cohort.</li> <li>Staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.</li> </ul>
Each school must have a system for daily logs to ensure contract ✓ tracing among the cohort (see section 1a of the <i>Ready Schools, Safe</i> <i>Learners</i> guidance).	Shared objects will be limited as much as possible and cleaned between uses.
<ul> <li>Minimize interaction between students in different stable cohorts</li> <li>(e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.</li> <li>Cleaning and disinfecting surfaces (e.g., desks, door handles, etc.)</li> <li>must be maintained between multiple student uses, even in the</li> </ul>	<ul> <li>There will be an increase in hand hygiene practices with scheduled times throughout the day for students to wash with soap and water or utilize hand sanitizer.</li> <li>Hands must be washed with soap and water before meals and after the bathroom, but hand sanitizer can be used at all other times.</li> </ul>
same cohort. Design cohorts such that all students (including those protected ✓ under ADA and IDEA) maintain access to general education, grade-level academic content standards, and peers.	<ul> <li>Cohorts</li> <li>Students will not be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week.</li> <li>Schools will plan to limit cohort sizes to allow for efficient</li> </ul>
Staff who interact with multiple stable cohorts must wash/sanitize	<ul> <li>Schools will plan to limit conort sizes to allow for enclent contact-tracing and minimal risk for exposure.</li> <li>All schools will minimize interaction between students in differer stable cohorts by scheduling student access to common areas. (e.g., access to restrooms, activities, common areas).</li> <li>K-5 grade level cohorts are maintained throughout the year and teach specialized area (special education support, English Language Development, music, PE, etc.)</li> <li>Secondary cohorts are maintained in modified scheduling and wi</li> </ul>

# 1e. PUBLIC HEALTH COMMUNICATION

OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>Communicate to staff at the start of On-Site instruction and at</li> <li>periodic intervals explaining infection control measures that are being implemented to prevent spread of disease.</li> <li>Develop protocols for communicating with students, families and</li> <li>staff who have come into close contact with a person who has COVID-19.</li> <li>The definition of exposure is being within 6 feet of a person who</li> </ul>	<ul> <li>Prior to on-site learning and/or hybrid instruction, the School COVID Mitigation Team will communicate the infection control measures that are being implemented to prevent the spread of the disease.</li> <li>Disease control measures will continue to be shared throughout the year in periodic intervals.</li> <li>The School COVID Mitigation Team will develop protocols for communicating with students, families, and staff:         <ul> <li>What to do if you suspect you or your family members may be</li> </ul> </li> </ul>
<ul> <li>families, and the school community when a new case(s) of COVID-19 is diagnosed in students or staff members, including a description of how the school or district is responding.</li> <li>X</li> </ul>	<ul> <li>symptomatic?</li> <li>What to do if in close/sustained contact with a confirmed case? The definition of exposure is being within 6 feet of a COVID-19 case for 15 minutes (or longer).</li> <li>How does the district respond when a new case has been confirmed?</li> </ul>
	<ul> <li>Updated communication will be shared with families and staff at least monthly or as updated information is available.</li> <li>Protocols and information will be available on the EPSD9 and our school's website.</li> <li>Information will be made available in languages and formats accessible to the school community.</li> </ul>

### **1f. ENTRY AND SCREENING**

#### OHA/ODE Requirements

Direct students and staff to stay home if they, or anyone in their S import homes or community living spaces, have COVID-19 symptoms, or if anyone in their home or community living spaces has COVID-19. COVID-19 symptoms are as follows:

- Primary symptoms of concern: cough, fever (temperature of 100.4°F or higher) or chills, shortness of breath, difficulty breathing, or new loss of taste or smell.
- Note that muscle pain, headache, sore throat, diarrhea, nausea, vomiting, *new* nasal congestion, and runny nose are also symptoms often associated with COVID-19. More information about COVID-19 symptoms is available <u>from CDC.</u>
- In addition to COVID-19 symptoms, students must be excluded from school for signs of other infectious diseases, per existing school policy and protocols. See pages 9-11 of OHA/ODE <u>Communicable Disease Guidance for Schools</u>.
- Emergency signs that require immediate medical attention:
  - Trouble breathing
  - o Persistent pain or pressure in the chest
  - o New confusion or inability to awaken
  - Bluish lips or face (lighter skin); greyish lips or face (darker skin)
  - Other severe symptoms

Screen all students and staff for symptoms on entry to bus/school ⊠ every day. This can be done visually and/or with confirmation from a parent/caregiver/guardian. Staff members can self-screen and attest to their own health.

- Anyone displaying or reporting the primary symptoms of concern must be isolated (see section 1i of the *Ready Schools, Safe Learners* guidance) and sent home as soon as possible. <u>See</u> table "Planning for COVID-19 Scenarios in Schools."
- Additional guidance for nurses and health staff.

Follow LPHA advice on restricting from school any student or staff

Known to have been exposed (e.g., by a household member) to COVID-19. See table "Planning for COVID-19 Scenarios in Schools."

Staff or students with a chronic or baseline cough that has worsened

or is not well-controlled with medication must be excluded from school. Do not exclude staff or students who have other symptoms that are chronic or baseline symptoms (e.g., asthma, allergies, etc.) from school.

Hand hygiene on entry to school every day: wash with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

### Hybrid/Onsite Plan

#### Screening on Entry

● Students and staff are directed to stay home if they, or anyone in their homes or community living spaces, have COVID-19 symptoms, or if anyone in their home or community living spaces has COVID-19.

CLA will follow the LPHA's advice on restricting any student or staff known to have been exposed (e.g., by a household member) to COVID-19 within the previous 14 calendar days.

• Staff are required to report to their supervisor when they may have been exposed to COVID-19 or have symptoms related to COVID-19.

 All students will be visually screened for symptoms on entry to bus and school buildings every day.

 Parents will be asked to report actual symptoms when calling in students sick as part of communicable disease surveillance.
 Transportation specific screening protocols will be followed

(see section 2i).

• Staff will not screen other staff.

#### Hand Hygiene on Entry

All people entering the building shall wash or sanitize hands on entry to school buildings every day.

• Handwashing stations or hand sanitizer dispensers will be placed by each entrance prior to student entrance to classes, or students will utilize classroom stations to wash hands.

#### Symptomatic Staff and Students

● Anyone displaying or reporting the primary symptoms of concern must be isolated and sent home as soon as possible (see section 1i of the *Ready Schools, Safe Learners* guidance). They must remain home until 24 hours after fever is gone (without use of fever reducing medicine) and other symptoms are improving.

• Staff or students with a chronic or baseline cough that has worsened or is not well-controlled with medication should be excluded from school.

#### **Existing Conditions**

We will not exclude staff or students who have a cough that is not a new onset or worsening cough (e.g., asthma, allergies, etc.) from school.

#### 1g. VISITORS/VOLUNTEERS

OHA/ODE Requirements	Hybrid/Onsite Plan
Restrict non-essential visitors/volunteers.	Non-essential visitors/volunteers will be unable to work at CLA, or
<ul> <li>Examples of essential visitors include: DHS Child Protective Services, Law Enforcement, etc.</li> </ul>	complete other volunteer activities that require in-person interaction, at this time.
<ul> <li>Examples of non-essential visitors/volunteers include: Parent Teacher Association (PTA), classroom volunteers, etc.</li> </ul>	Adult visitors in schools are limited to essential personnel (service providers, contractors, ESD personnel, etc.) only.
Screen all visitors/volunteers for symptoms upon every entry.	Staff members such as student teachers, substitute teachers,
Restrict from school property any visitor known to have been	counseling interns, practicum students, and other itinerant staff are not
exposed to COVID-19. <u>See table "Planning for COVID-19 Scenarios in</u> <u>Schools."</u>	considered visitors.
Visitors/volunteers must wash or sanitize their hands upon entry and	Essential personnel/volunteers/visitors are required to:
$\boxtimes$ exit.	• Wash or sanitize their hands upon entry and exit to the school's
Visitors/volunteers must maintain six-foot distancing, wear face	building
<ul> <li>coverings, and adhere to all other provisions of this guidance.</li> </ul>	Be visually screened for symptoms during sign-in and will not be allowed to enter if symptomatic.

• Wear a face covering, maintain six feet of physical distance between themselves and others and adhere to all other provisions required by the school.

	1h. FACE COVERINGS, FACE SHIEL	DS, AND CLEAR PLASTIC BARRIERS
OH	IA/ODE Requirements	Hybrid/Onsite Plan
	<ul> <li>A/ODE Requirements</li> <li>Face coverings or face shields for all staff, contractors, other service providers, visitors or volunteers following <u>CDC guidelines for Face</u></li> <li><u>Coverings</u>. Individuals may remove their face coverings while working alone in private offices. Face shields are an acceptable alternative when a person has a medical condition that prevents them from wearing a mask or face covering, when people need to see mouth and tongue motions in order to communicate, or when an individual is speaking to an audience for a short period of time and clear communication is otherwise not possible.</li> <li>Face coverings or face shields for all students in grades Kindergarten and up following <u>CDC guidelines for Face Coverings</u>. Face shields are an acceptable alternative when a student has a medical condition that prevents them from wearing a mask or face covering, or when people need to see the student's mouth and tongue motions in order to communicate.</li> <li>Face coverings should be worn both indoors and outdoors, including during outdoor recess.</li> <li>Group mask breaks" or "full classroom mask breaks" are not allowed. If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time:</li> <li>Provide space away from peers while the face covering is removed. In the classroom setting, an example could be a designated chair where a student can sit and take a 15 minute "sensory break;"</li> <li>Students must not be left alone or unsupervised;</li> <li>Designated area or chair must be appropriately distanced from other students and of a material that is easily wiped down for disinfection after each use;</li> <li>Provide students adequate support to re-engage in safely wearing a face covering;</li> <li>Students cannot be discriminated against or disciplined for an inability to safely wear a face covering during the school day.</li> <li>Face masks for school RNs or other medical personnel when</li> </ul>	<ul> <li>Hybrid/Onsite Plan</li> <li>Face Shields and Barriers</li> <li>Face coverings or face shields will be provided for all CLA staff, contractors, other service providers, or visitors or volunteers following CDC guidelines Face Coverings. All staff, contractors, other service providers, or visitors or volunteers are expected to wear face coverings or face shields.</li> <li>All students in grades Kindergarten through Twelfth grade will wear face coverings or face shields following CDC guidelines Face Coverings. at school.</li> <li>If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time, the teacher will:</li> <li>Provide space away from peers while the face covering is removed; students should not be left alone or unsupervised.</li> <li>Provide additional instructional supports to effectively wear a face covering;</li> <li>Provide students adequate support to re-engage in safely wearing a face covering.</li> <li>Students cannot be discriminated against or disciplined for an inability to safely wear a face covering during the school day.</li> <li>Our District Nurse or other medical personnel providing direct contact care and/or monitoring staff/students displaying symptoms are required to wear appropriate Personal Protective Equipment (PPE) for their role.</li> <li>Protections under the ADA or IDEA</li> <li>If any student requires an accommodation to meet the requirement for face coverings, or other health related concerns, EPSD9 will not deny access to On-Site instruction.</li> <li>CLA will comply with the established IEP/504 plans prior to the closure of in-person instruction in March of 2020.</li> <li>CLA will consider child find implications for students who are not currently eligible for, or receiving services under, a 504/IEP who</li> </ul>
Dro	displaying symptoms. School nurses shall also wear appropriate Personal Protective Equipment (PPE) for their role.	demonstrate an inability to consistently wear a face covering or face shield as required. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504. ● If a staff member requires an accommodation for the face covering or
	If any student requires an accommodation to meet the requirement	face shield requirements, CLA will limit the staff member's proximity to students and staff to the extent possible to minimize the possibility of exposure.

- For students with existing medical conditions and a physician's orders
   to not wear face coverings, or other health related concerns, schools/districts **must not** deny any in-person instruction.
- Schools and districts must comply with the established IEP/504 plan imprior to the closure of in-person instruction in March of 2020, or the current plan in effect for the student if appropriately developed after March of 2020.
  - If a student eligible for, or receiving services under a 504/IEP, cannot wear a face covering due to the nature of the disability, the school or district must:
    - Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan including on-site instruction with accommodations or adjustments.
    - 2. Not make placement determinations solely on the inability to wear a face covering.
    - 3. Include updates to accommodations and modifications to support students in plans.
  - For students protected under ADA/IDEA, who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering, the school or district must:
    - Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan.
    - 2. The team must determine that the disability is not prohibiting the student from meeting the requirement.
      - If the team determines that the disability is prohibiting the student from meeting the requirement, follow the requirements for students eligible for, or receiving services under, a 504/IEP who cannot wear a face covering due to the nature of the disability,
      - If a student's 504/IEP plan included supports/goals/instruction for behavior or social emotional learning, the school team must evaluate the student's plan prior to providing instruction through Comprehensive Distance Learning.
    - 3. Hold a 504/IEP meeting to determine equitable access to educational opportunities which may include limited in-person instruction, on-site instruction with accommodations, or Comprehensive Distance Learning.
- For students not currently served under an IEP or 504, districts must is consider whether or not student inability to consistently wear a face covering or face shield as required is due to a disability. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504.
- If a staff member requires an accommodation for the face covering or face shield requirements, districts and schools shall work to limit the staff member's proximity to students and staff to the extent possible to minimize the possibility of exposure.

#### **1i. ISOLATION AND QUARANTINE**

0	OHA/ODE Requirements	Hybrid/Onsite Plan
	Protocols for exclusion and isolation for sick students and staff	The protocols for exclusion and isolation for sick students and staff
[	☑ whether identified at the time of bus pick-up, arrival to school, or at	whether identified at the time of bus pick-up, arrival to school, or at any
	any time during the school day.	time during the school day are available at TRE and AAP.
		CLA staff will be provided training on the signs of illness, guidelines for
[	protocols for sick students and staff identified at the time of arrival or	isolation, and appropriate measures to take, should a student or staff
		member display COVID-19 symptoms upon entry to school or at any time
	<b>c</b> ,	during the school day.

- Work with school nurses, health care providers, or other staff with expertise to determine necessary modifications to areas where staff/students will be isolated. If two students present COVID-19 symptoms at the same time, they must be isolated at once. If separate rooms are not available, ensure that six feet distance is maintained. Do not assume they have the same illness.
- Consider required physical arrangements to reduce risk of disease transmission.
- Plan for the needs of generally well students who need medication or routine treatment, as well as students who may show signs of illness.
- Additional guidance for nurses and health staff for providing care to students with complex needs.

Students and staff who report or develop symptoms must be isolated in a designated isolation area in the school, with adequate space and staff supervision and symptom monitoring by a school nurse, other school-based health care provider or school staff until they are able to go home. Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields.

- School nurse and health staff in close contact with symptomatic individuals (less than 6 feet) must wear a medical-grade face mask. Other Personal Protective Equipment (PPE) may be needed depending on symptoms and care provided. Consult a nurse or health care professional regarding appropriate use of PPE. Any PPE used during care of a symptomatic individual must be properly removed and disposed of prior to exiting the care space.
- After removing PPE, hands shall be immediately cleaned with soap and water for at least 20 seconds. If soap and water are not available, hands can be cleaned with an alcohol-based hand sanitizer that contains 60-95% alcohol.
- If able to do so safely, a symptomatic individual shall wear a face covering.
- To reduce fear, anxiety, or shame related to isolation, provide a clear explanation of procedures, including use of PPE and handwashing.

Establish procedures for safely transporting anyone who is sick to is their home or to a healthcare facility.

Staff and students who are ill must stay home from school and must

 be sent home if they become ill at school, particularly if they have COVID-19 symptoms. Refer to table in <u>"Planning for COVID-19</u> <u>Scenarios in Schools."</u>

Involve school nurses, School Based Health Centers, or staff with

related experience (Occupational or Physical Therapists) in development of protocols and assessment of symptoms (where staffing exists).

Record and monitor the students and staff being isolated or sent ☑ home for the LPHA review. ● A primary isolation area will be designated for symptomatic Staff and students at all sites. Supervision will be provided by the District Nurse or school personnel trained by the District Nurse. If necessary, secondary isolation areas will be identified in collaboration with the District Nurse and site administrator.

A separate designated area will be available for "well" students to access health care for routine first aid and medication administration. Symptomatic students will not have access to this area.

### Exposed or Symptomatic Students and Staff

Students and staff who report or develop symptoms will be isolated in a designated isolation area in the school, with adequate space and staff supervision and symptom monitoring by the District Nurse, other school-based health care provider or school staff until they are able to go home.

• Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields.

- School nurse and health staff in close contact with symptomatic individuals (less than six feet) should wear a medical-grade face mask. Other Personal Protective Equipment (PPE) may be needed depending on symptoms and care provided. Any PPE used during care of a symptomatic individual should be properly removed and disposed of prior to exiting the care space.
- After removing PPE, hands should be immediately cleaned with soap and water for at least 20 seconds. If soap and water are not available, hands can be cleaned with an alcohol-based hand sanitizer that contains 60-95% alcohol.
- If able to do so safely, asymptomatic individuals should continue to wear a face covering.
- To reduce fear, anxiety, or shame related to isolation, a clear explanation of procedures, including use of PPE and handwashing will be provided to exposed or symptomatic students and staff.

• The Administrator or designee at the location of students or staff that have been exposed or are symptomatic will contact parent/guardian or significant other to transport the student or staff member home. If necessary, transportation by bus can be made.

• Staff and students who are ill must stay home from school and must be sent home if they become ill at school, particularly if they have COVID-19 symptoms.

• Symptomatic staff or students should be evaluated and seek COVID-19 testing from their regular physician or through the local public health authority.

- If they have a positive COVID-19 viral (PCR) test result, the person should remain home for at least 10 days after illness onset and 24 hours after fever is gone, without use of fever reducing medicine, and other symptoms are improving.
- If they have a negative COVID-19 viral test (and if they have multiple tests, all tests are negative), they should remain home until 24 hours after fever is gone, without use of fever reducing medicine, and other symptoms are improving.
- If a clear alternative diagnosis is identified as the cause of the person's illness (e.g., a positive strep throat test), then usual disease-specific return-to-school guidance should be followed and person should be fever-free for 24 hours, without use of fever reducing medicine. A physician note is required to return to school, to ensure that the person is not contagious.
- If they do not undergo COVID-19 testing, the person should remain at home for 10 days and until 24 hours after fever is gone, without use of fever reducing medicine, and other symptoms are improving.

CLA will record and monitor the students and staff being isolated or sent home for the LPHA review.

# 2. Facilities and School Operations

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the *Ready Schools, Safe Learners* guidance).

<b>2a. ENROLLMENT</b> (Note: Section 2a does not apply to private schools.)		
OHA/ODE Requirements	Hybrid/Onsite Plan	
<ul> <li>Enroll all students (including foreign exchange students) following the standard Oregon Department of Education guidelines.</li> <li>The temporary suspension of the 10-day drop rule does not change</li> <li>the rules for the initial enrollment date for students: <ul> <li>The ADM enrollment date for a student is the first day of the student's actual attendance.</li> <li>A student with fewer than 10 days of absence at the beginning of the school year may be counted in membership prior to the first day of attendance, but not prior to the first calendar day of the school year.</li> <li>If a student does not attend during the first 10 session days of school, the student's ADM enrollment date must reflect the student's actual first day of attendance.</li> <li>Students who were anticipated to be enrolled, but who do not attend at any time must not be enrolled and submitted in ADM.</li> <li>If a student has stopped attending for 10 or more days, districts must attempt to contact these students and their families weekly to either encourage attendance or receive confirmation that the student has transferred or has withdrawn from school. This includes students who were scheduled to start the school year, but who have not yet attended.</li> <li>When enrolling a student from another school, schools must request documentation obtained directly from the family does not relieve the school of this responsibility. After receiving documentation from</li> </ul> </li> </ul>	<ul> <li>All students will be enrolled following the Oregon Department of Education guidelines.</li> <li>Students and families will be given the option to enroll in On-site, Hybrid learning or off-site/online only learning based upon ODE metrics for re-opening.</li> <li>Hybrid learning and off-site only learning opportunities will utilize parallel planning, allowing symptomatic students to continue learning during a medical absence.</li> <li>No student will be dropped for non-attendance if they meet the following conditions:</li> <li>Are identified as vulnerable, or otherwise considered to be a part of a population vulnerable to infection with COVID-19.</li> <li>Have COVID-19 symptoms for the past 14 days.</li> <li>The CLA attendance policy attendance will account for students who do not attend in-person due to student or family health and safety concerns. See 2b.</li> </ul>	
another school that a student has enrolled, drop that student from your roll. Design attendance policies to account for students who do not		
$\boxtimes$ attend in-person due to student or family health and safety concerns.		
When a student has a pre-excused absence or COVID-19 absence, the school district must reach out to offer support at least weekly until the student has resumed their education.		
<ul> <li>When a student is absent beyond 10 days and meets the criteria for</li> <li>continued enrollment due to the temporary suspension of the 10 day drop rule, continue to count them as absent for those days and include those days in your Cumulative ADM reporting.</li> </ul>		

**2b. ATTENDANCE** 

(Note: Section 2b does not apply to private schools.)		
OHA/ODE Requirements	Hybrid/Onsite Plan	
Grades K-5 (self-contained): Attendance must be taken at least once ≥ per day for all students enrolled in school, regardless of the instructional model (On-Site, Hybrid, Comprehensive Distance Learning, online schools). Grades 6-12 (individual subject): Attendance must be taken at least	Attendance will be taken at least five times per week for Grades K-12 for all students enrolled in school regardless of the instructional model (Hybrid or Comprehensive Distance Learning). • Attendance includes both participation in class activities and

	student attendance and participation expectations as well as family involvement expectations that take into consideration the home environment, caregiver's work schedule, and mental/physical health.	

2c. TECHNOLOGY		
OHA/ODE Requirements	Hybrid/Onsite Plan	
<ul> <li>Update procedures for school-owned devices to match cleaning</li> <li>requirements (see section 2d of the <i>Ready Schools, Safe Learners</i> guidance).</li> <li>Procedures for return, inventory, updating, and redistributing</li> <li>✓ district-owned devices must meet physical distancing requirements.</li> </ul>	<ul> <li>CLA has and will continue to conduct and confirm family technology connectivity</li> <li>CLA will provide all students with a label for their assigned school-owned device prior to returning to school.</li> <li>CLA will continue to keep school-issued devices chargers at home and review daily care and routines for the devices.</li> <li>CLA will maintain teacher and administrator issued laptops and iPads and support users with remote needs. Hotspots are assigned as needed.</li> <li>CLA has established Canvas as the district platform to facilitate continuous learning experiences that occur on-site and in a distance learning setting (off-site); include options for digital learning and provision for non-digital distance learning per parent request.</li> <li>CLA will review technology policies and data privacy policies with all stakeholders.</li> <li>CLA will continue technology support services for families with translation services to meet the needs of all.</li> <li>CLA will issue loaner devices as needed for students with broken devices.</li> </ul>	

2d. SCHOOL SPECIFIC FUNCTIONS/FACILITY FEATURES		
OHA/ODE Requirements	Hybrid/Onsite Plan	
Handwashing: All people on campus shall be advised and encouraged ☑ to frequently wash their hands or use hand sanitizer.	<ul> <li>Handwashing: All students will have access to hand washing before meals and snacks are served and after restroom use. Opportunity for frequent hand washing/sanitizer stations will be provided</li> </ul>	

<b>Equipment:</b> Develop and use sanitizing protocols for all equipment used by more than one individual or purchase equipment for	throughout the school day when students are present.
individual use.	• Equipment: All classroom supplies, playground equipment (to CDC
Events: Cancel, modify, or postpone field trips, assemblies, athletic	standards) and PE equipment will be cleaned and sanitized before
events, practices, special performances, school-wide parent meetings	use by another cohort group. Sharing of classroom supplies will be limited.
and other large gatherings to meet requirements for physical	innitea.
distancing. Transitions/Hallways: Limit transitions to the extent possible. Create	• Events: Field trips will be reviewed individually by the principal in
☑ hallway procedures to promote physical distancing and minimize	consultation with the district office and will need to meet social
gatherings.	distancing, safety precautions and ensure proper supervision. All
Personal Property: Establish policies for personal property being	assemblies, special performances, school-wide parent meetings and
⊠ brought to school (e.g., refillable water bottles, school supplies,	other large gatherings will be cancelled, held in a virtual format, or
headphones/earbuds, cell phones, books, instruments, etc.). If	designed in a manner that allows appropriate physical distancing to be maintained throughout.
personal items are brought to school, they must be labeled prior to	
entering school and use shall be limited to the item owner.	Transitions/Hallways: Hallway traffic direction marked to show
	travel flow. Lining up will be limited and used only when necessary
	socially distanced, and visibly marked.
	Safety Drills:
	During fire drills (and all other safety drills), all cohort classes will b
	physically distanced during exit, recovery, and reentry procedures.
	Schools will consult the local fire/police department to ensure
	safety of all students/staff.
	Events:
	Field trips will be reviewed individually by the principal in
	consultation with the district office and will need to meet social
	distancing, safety precautions and ensure proper supervision. All
	assemblies, special performances, school-wide parent meetings an
	other large gatherings will be cancelled, held in a virtual format, or designed in a manner that allows appropriate physical distancing to
	be maintained throughout.
	<ul> <li>Personal Property: Each classroom will have a limit on the number</li> </ul>
	of personal items brought in to school. A full list will be sent home
	prior to class starting with allowable items (e.g., refillable water bottles, school supplies, headphones/earbuds, cell phones, books,
	etc.). If personal items are brought to school, they must be labeled
	prior to entering school and not shared with other students.
	Restrooms: Each cohort will have designated restroom schedules
	alleviating waiting and large groups. If this cannot be maintained,
	the restrooms will be cleaned multiple times throughout the day.

OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>Physical distancing, stable cohorts, square footage, and cleaning</li> <li>requirements must be maintained during arrival and dismissal procedures.</li> <li>Create schedule(s) and communicate staggered arrival and/or</li> <li>dismissal times.</li> <li>Assign students or cohorts to an entrance; assign staff member(s) to</li> <li>conduct visual screenings (see section 1f of the <i>Ready Schools, Safe Learners</i> guidance).</li> <li>Ensure accurate sign-in/sign-out protocols to help facilitate contact</li> <li>tracing by the LPHA. Screening will include updating the cohort or individual student logs</li> <li>Contact Tracing Protocol</li> </ul>

# 2e. ARRIVAL AND DISMISSAL

entrance and screening requirements. Students entering school after arrival times must be screened for the primary symptoms of concern.

- Eliminate shared pen and paper sign-in/sign-out sheets.
- Ensure hand sanitizer is available if signing children in or out on an electronic device.

Ensure alcohol-based hand sanitizer (with 60-95% alcohol) dispensers

are easily accessible near all entry doors and other high-traffic areas. Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible.

CLA staff members will be assigned to all entrances to our school. They will use a sign-in/sign-out protocol to help facilitate contact tracing.

Students may sign in and out using a QR code for exiting the classroom and reentering. The supervising adult can also record student entrance and exit.

#### Arrival of all Students and Cohorts

Physical distancing, stable cohorts, square footage, and cleaning requirements will be maintained during arrival procedures.

● CLA will work with Transportation to determine student staggered drop off times. This will also be clearly communicated to all of the school's parents/guardians. The need to keep drop-off interactions as brief as possible will also be shared with families.

• All students are assigned to at least one cohort.

• Students or cohorts will be assigned to use an entrance and exit; all classes with outside doors will utilize this entrance.

• Each teacher or designee will use a sign-in/sign-out protocol to help facilitate contact tracing.

• Students may sign in and out using a scan code for exiting the classroom and reentering. Or, staff will fill in the information and not allow a shared pen/paper.

Hand sanitizer will be available at reception to use in conjunction with arrival/dismissal and sign-in/sign-out.

 Handwashing stations or hand sanitizer dispensers will be placed near all entry doors and other high-traffic areas.

• Specific areas will be marked to designate one-way traffic flow for transitions of traffic for vehicles and on-foot.

#### Dismissal:

Physical distancing, stable cohorts, square footage, and cleaning requirements will be maintained during dismissal procedures.

• Students will remain in their assigned cohort at the end of the day until released by cohort.

Upon release, all students in the cohort will go directly to their bus or departure point from campus.

• For families with multiple children in different cohorts, outdoor spaces will be utilized to maintain cohort groups and ensure student supervision.

• All classes with outside doors will utilize this exit.

CLA will work with Transportation to determine student staggered pick up times. This will also be clearly communicated to all of the school's parents/guardians. The need to keep pick-up

interactions as brief as possible will also be shared with families.

• Specific areas will be marked at CLA to designate one-way traffic flow for transitions of traffic for vehicles and on-foot.

• CLA has established this protocol for students whose

parent/guardian is late picking them up.

0	HA/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$		Seating: Classroom layout will allow for desks/tables to be at least 6 feet apart and students will be assigned to the same seat at all times.
$\boxtimes$	Materials: Avoid sharing of community supplies when possible (e.g., scissors, pencils, etc.). Clean these items frequently. Provide hand sanitizer and tissues for use by students and staff.	Materials: Each classroom will limit sharing of community supplies when possible (e.g., scissors, pencils, etc.). If needed to share, these items will be
$\boxtimes$	Handwashing: Remind students (with signage and regular verbal reminders from staff) of the utmost importance of hand hygiene and	cleaned frequently. Hand sanitizer and tissues will be available for use by students and staff.

#### 2f. CLASSROOMS/REPURPOSED LEARNING SPACES

<ul> <li>Wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.</li> <li>Furr All u</li> <li>Clas</li> <li>A indii</li> <li>F (i.e., S)</li> <li>A betw</li> </ul>	Indwasning: Judents will be reminded (with signage and regular verbal reminders om staff) of the utmost importance of hand hygiene and respiratory quette. Respiratory etiquette means covering coughs and sneezes th an elbow or a tissue. Tissues should be disposed of in a garbage can, en hands washed or sanitized immediately. • Hands should be washed with soap and water for 20 seconds or e an alcohol-based hand sanitizer with 60-95% alcohol rniture: upholstered furniture and soft seating will be removed from CLA <b>All K-7</b> classes will use an assigned cubby or storage spaces for dividual student belongings; High school students will carry personal belongings a., in backpacks). Shared restroom/hall passes will not be used. All shared spaces (e.g., cafeteria, library, gymnasium) will be cleaned tween cohort use. <b>mage:</b> ch class and hallway will have visual aids (e.g., painter's tape, stickers, c.) to illustrate traffic flow, appropriate spacing, assigned seating areas. <b>vironment:</b> When possible, windows will be open in the classroom before idents arrive and after students leave. Each classroom will hold classes outside when possible and courage students to spread.
2g. PLAYGROUNDS, FIELDS, RECESS,	5, BREAKS, AND RESTROOMS
OHA/ODE Requirements Hyb	brid/Onsite Plan

OF	A/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$	Keep school playgrounds closed to the general public until park playground equipment and benches reopen in the community (see Oregon Health Authority's <u>Specific Guidance for Outdoor Recreation</u> <u>Organizations</u> ).	Playground(s) will remain closed for public use. Schools will post adequate signs sharing this information with the public. At that point, classes may use the playground for recess on a staggered schedule throughout the school day.
$\boxtimes$	After using the restroom students must wash hands with soap and water for 20 seconds. Soap must be made available to students and staff.	<ul> <li>All playground structures will be disinfected daily and in between each cohort group.</li> <li>Playground supplies: Each cohort group will use their own playground supplies (e.g., balls, jump ropes, etc.).</li> </ul>
$\boxtimes$	Before and after using playground equipment, students must wash hands with soap and water for 20 seconds <u>or</u> use an alcohol-based hand sanitizer with 60-95% alcohol.	After using the restroom, students will wash hands with soap and water for 20 seconds. Soap is available to students and staff.
	Designate playground and shared equipment solely for the use of one cohort at a time. Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) should be cleaned and disinfected at least daily in accordance with <u>CDC guidance</u> . Cleaning requirements must be maintained (see section 2j of the <b>Ready Schools, Safe Learners</b> guidance).	<ul> <li>hands with soap and water for 20 seconds <u>or</u> use an alcohol-based hand sanitizer with 60-95% alcohol.</li> <li>Cleaning requirements will be maintained;</li> <li>Recess activities will be planned to support physical distancing and maintain stable cohorts. This can include limiting the number of students on one piece of equipment, at one game, etc.</li> </ul>
$\boxtimes$	Maintain physical distancing requirements, stable cohorts, and square footage requirements.	Given the lessened capacity for equipment use due to cohorting and physical distancing requirements, staff will set expectations for shared use of equipment by students and may need to
$\boxtimes$	Provide signage and restrict access to outdoor equipment (including sports equipment, etc.).	support students with schedules for when specific equipment can be used.
$\boxtimes$	Design recess activities that allow for physical distancing and maintenance of stable cohorts.	Staff rooms, common staff lunch areas, and workspaces will be limited to single person usage at a time, maintaining six feet of distance between adults.

	Clean all outdoor equipment at least daily or between use as much as
$\boxtimes$	possible in accordance with <u>CDC guidance</u> .

Limit the number of employees gathering in shared spaces. Restrict □ use of shared spaces such as conference rooms, break rooms, and elevators by limiting occupancy or staggering use, maintaining six feet of distance between adults. Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable space, understanding that tables and room set-up will require use of all space in the calculation.

	2h. MEAL SERVICE/NUTRITION		
ОН	A/ODE Requirements	Hybrid/Onsite Plan	
$\boxtimes$		Sodexo and CLA will continue to provide meal service to students on-site (and off-site to the extent possible) and in compliance with Federal	
$\boxtimes$	Tombit sen service burret style meals.	requirements for meals. ● Health and safety standard protocols will be followed by staff. ● Cleaning and disinfecting of facilities will align with CDC Cleaning and	
$\boxtimes$	Prohibit sharing of food and drinks among students and/or staff.	<ul> <li>Electring and disinfecting of identics will align with ebe electring and</li> <li>Disinfecting School Guidance.</li> <li>Face coverings and gloves will be required for Food and Nutrition</li> </ul>	
$\boxtimes$	coverings to eat or drink but must maintain six feet of physical distance from others, and must put face coverings back on after	Services workers and other staff at all times when serving food and cleaning or sanitizing an item or surface. ● Each table/desk will be cleaned prior to meals being consumed. ● All students must wash or sanitize hands prior to meals and should be	
$\boxtimes$	must wear face coverings (see section 1h of the <i>Ready Schools, Safe Learners</i> guidance).	encouraged to do so after. If possible, this should be done in the classroom. If not, student hand sanitizer is available in the cafeteria. ● CLA have a plan for consuming school meals.	
$\boxtimes$	and shall be encouraged to do so after.	If students pick up food, touch-points in the cafeteria will be sanitized between stable cohorts.	
$\boxtimes$	transport items).	Transported trays/carts will be sanitized between deliveries to stable cohorts.	
$\boxtimes$	system between stable cohorts	<ul> <li>All meals will be eaten in the classroom or designated area with cohort groups.</li> <li>Students will not share food, utensils, or other items during meals.</li> </ul>	
$\boxtimes$	Adequate cleaning and disinfection of tables between meal periods.	<ul> <li>Statements with not share rood, atensis, or other rechts during means.</li> <li>Since staff must remove their face coverings during eating and drinking, staff should eat snacks and meals independently, and not in</li> </ul>	
$\boxtimes$	Since staff must remove their face coverings during eating and drinking, limit the number of employees gathering in shared spaces. Restrict use of shared spaces such as conference rooms and break rooms by limiting occupancy or staggering use. Consider staggering times for staff breaks, to prevent congregation in shared spaces. Always maintain at least six feet of physical distancing and establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the	staff rooms when other people are present.	
	calculation. Wear face coverings except when eating or drinking and minimize time in spaces where face coverings are not consistently worn.		

OHA/ODE Requirements	Hybrid/Onsite Plan	
	This plan has been created in conjunction with the EPSD9 Transportation team.	
<ul> <li>Tottes, with a focus of disinfecting frequently touched surfaces of the bus (see section 2j of the <i>Ready Schools, Safe Learners</i> guidance).</li> <li>Staff must use hand sanitizer (containing between 60-95% alcohol) in</li> <li>Detween helping each child and when getting on and off the vehicle. Gloves are not recommended: hand sanitizer is strongly preferred. If</li> </ul>	Bus drivers are required to wear face coverings or facial shields when not actively driving and operating the bus. If a driver chooses a face shield, the shield may be lifted when driving, but face covering must remain on. Each bus driver/staff will be required to: ● Follow entry and screening procedures (training will be provided by the District Nurse).	

# **2i. TRANSPORTATION**

hand sanitizer is not available, disposable gloves can be used and must be changed to a new pair before helping each child.

- Develop protocol for loading/unloading that includes visual screening Visually screen students for illness. ☑ for students exhibiting symptoms and logs for contact-tracing. This must be done at the time of arrival and departure.
  - If a student displays COVID-19 symptoms, provide a face covering (unless they are already wearing one) and keep six feet away from others. Continue transporting the student.
    - The symptomatic student shall be seated in the first row of the bus during transportation, and multiple windows must be opened to allow for fresh air circulation, if feasible.
    - The symptomatic student shall leave the bus first. After all 0 students exit the bus, the seat and surrounding surfaces must be cleaned and disinfected.
    - If arriving at school, notify staff to begin isolation measures.
      - If transporting for dismissal and the student displays an onset of symptoms, notify the school.
- Consult with parents/guardians of students who may require ☑ additional support (e.g., students who experience a disability and require specialized transportation as a related service) to appropriately provide service.

Drivers must wear masks or face coverings while driving, unless the

- mask or face covering interferes with the driver's vision (e.g., fogging  $\mathbf{X}$ of eyeglasses). Drivers must wear face coverings when not actively driving and operating the bus, including while students are entering or exiting the vehicle. A face shield may be an acceptable alternative, as stated in Section 1h of the Ready Schools, Safe Learners guidance. Inform parents/guardians of practical changes to transportation
- service (i.e., physical distancing at bus stops and while  $\square$ loading/unloading, potential for increased route time due to additional precautions, sanitizing practices, and face coverings). Face coverings or face shields for all students in grades Kindergarten
- and up following <u>CDC guidelines</u> applying the guidance in section 1h of the Ready Schools, Safe Learners guidance to transportation settings.

students leave, and while students are present. Do not prop open

Remind all students in grades Kindergarten and up to follow CDC guidelines by wearing face coverings or face shields.

- If a student displays COVID-19 symptoms, provide a face shield or face covering (unless they are already wearing one) and keep six feet away from others.
- Continue transporting the student.
- If arriving at school, notify staff to begin isolation measures.
- If transporting for dismissal and the student displays an onset of symptoms, the bus driver will notify the TRE or AAP office.

• Consult with parents/guardians of students who may require additional support (e.g., students who experience a disability and require specialized transportation as a related service) to appropriately provide service.

Inform parents/guardians of practical changes to transportation service (i.e., physical distancing at bus stops and while

loading/unloading, potential for increased route time due to additional precautions, sanitizing practices, and face coverings)

Clean and sanitize buses on a regular basis and as directed with the product used. Targeted cleanings of frequently touched surfaces of the bus (see section 2j).

#### 2j. CLEANING, DISINFECTION, AND VENTILATION OHA/ODE Requirements Hybrid/Onsite Plan Clean, sanitize, and disinfect frequently touched surfaces (e.g. door All frequently touched surfaces (e.g., playground equipment, door ☑ handles, sink handles, drinking fountains, transport vehicles) and handles, sink handles, drinking fountains, transport vehicles) and shared shared objects (e.g., toys, games, art supplies) between uses multiple objects (e.g., toys, games, art supplies) will be cleaned between uses at times per day. Maintain clean and disinfected (CDC guidance) least 3 times per day. environments, including classrooms, cafeteria settings and Operations of Outside Air restrooms. • Minimum of 5% open during unoccupied or when temperature is too Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment should be cleaned and high or too low. All of the OSA setups are per ASHRAE standards for $\boxtimes$ building size and occupancy level and our regional zone. In our newer disinfected at least daily in accordance with CDC guidance. schools we have digital controls to set and monitor outside air intake, as Apply disinfectants safely and correctly following labeling direction as well as CO2 levels in the buildings. We also have manual dampers on specified by the manufacturer. Keep these products away from some of the older systems that are set at 75% open when the unit is in students. operation, with no adjustment needed. To reduce the risk of asthma, choose disinfectant products on the • The school has mechanical economizers and digitally controlled EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide, outside air dampers, that provide fresh air to the classrooms and citric acid, or lactic acid) and avoid products that mix these with buildings. These also have an external heating element that will assist in asthma-causing ingredients like peroxyacetic acid, sodium tempering the air at lower temps prior to it entering the space. These are hypochlorite (bleach), or quaternary ammonium compounds. also set at the required level as per ASHRAE and installation instructions, Schools with HVAC systems must evaluate the system to minimize or 10% minimum, based on our region. Each system has built up indoor air recirculation (thus maximizing fresh outdoor air) to the economizers that will bring fresh air into the building and also have a extent possible. Schools that do not have mechanical ventilation power exhaust that will remove air from the system and works in systems shall, to the extent possible, increase natural ventilation by conjunction with the economizer. Again these are set at the required opening windows and interior doors before students arrive and after setting and have a minimum setting of 10% in inclement temperatures.

doors that can pose a safety or security risk to students and staff (e.g., exterior doors and fire doors that must remain closed). Consider running ventilation systems continuously and changing the

- ☑ filters more frequently. Do not use fans if they pose a safety or health risk, such as increasing exposure to pollen/allergies or exacerbating asthma symptoms. Consider using window fans or box fans positioned in open windows to blow fresh outdoor air into the classroom via one window, and indoor air out of the classroom via another window. Fans must not be used in rooms with closed windows and doors, as this does not allow for fresh air to circulate. Consider the need for increased ventilation in areas where students
- with special health care needs receive medication or treatments.
   Facilities must be cleaned and disinfected at least daily to prevent
- transmission of the virus from surfaces (see <u>CDC's guidance on</u> <u>disinfecting public spaces</u>).
- Consider modification or enhancement of building ventilation where feasible (see <u>CDC's guidance on ventilation and filtration</u> and <u>American Society of Heating, Refrigerating, and Air-Conditioning</u>

Engineers' guidance). Clean, sanitize, and disinfect frequently touched surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and

shared objects (e.g., toys, games, art supplies) between uses multiple times per day. Maintain clean and disinfected (<u>CDC guidance</u>) environments, including classrooms, cafeteria settings and restrooms.

\*Filters currently in use are Merv 8, which assist in the removal of particles from the air stream at least 3 times per year.

2k.	HEALTH	SERVICES

OHA,	/ODE Requirements	Hybrid/Onsite Plan	
O P ir st st Li Li b st St	DAR 581-022-2220 Health Services, requires districts to "maintain a revention-oriented health services program for all students" ncluding space to isolate sick students and services for students with pecial health care needs. While OAR 581-022-2220 does not apply to rivate schools, private schools must provide a space to isolate sick tudents and provide services for students with special health care needs. icensed, experienced health staff should be included on teams to letermine district health service priorities. Collaborate with health wrofessionals such as school nurses; SBHC staff; mental and hehavioral health providers; dental providers; physical, occupational, peech, and respiratory therapists; and School Based Health Centers	<ul> <li>CLA will collaborate with health professionals to help determine priorities.</li> <li>CLA will provide age appropriate hand hygiene and respiratory etiquette education to endorse prevention. This includes website, newsletter and signage in the school setting for health promotion.</li> <li>CLA will practice appropriate communicable disease isolation and exclusion measures.</li> <li>CLA staff will participate in required health services related training to maintain health service practices in the school setting.</li> <li>COVID-19 specific infection control practices for CLA staff and students will be communicated.</li> <li>CLA Staff will review 504 and IEP accommodations and IHP's will be</li> </ul>	
s		-	
		<ul> <li>Provided to families.</li> <li>Continuity of existing health management issues will have a plan for sustaining operations alongside COVID-19 specific planning (i.e. medication administration, diabetic care).</li> </ul>	

#### 2I. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY

<ul> <li>Provide specific plan details and adjustments in Operational Blueprints that address staff and student safety, which includes how you will approach:         <ul> <li>Contact tracing</li> <li>The intersection of cohort designs in residential settings (by</li> </ul> </li> </ul>	OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>wing or common restrooms) with cohort designs in the instructional settings. The same cohorting parameter limiting total cohort size to 100 people applies.</li> <li>Quarantine of exposed staff or students</li> </ul>	<ul> <li>Provide specific plan details and adjustments in Operational Blueprints that address staff and student safety, which includes how you will approach:         <ul> <li>Contact tracing</li> <li>The intersection of cohort designs in residential settings (by wing or common restrooms) with cohort designs in the instructional settings. The same cohorting parameter limiting total cohort size to 100 people applies.</li> </ul> </li> </ul>	

<ul> <li>Communication and designation of where the "household" or</li> </ul>	
"family unit" applies to your residents and staff	
□ Review and take into consideration <u>CDC guidance</u> for shared or	
congregate housing:	
<ul> <li>Not allow more than two students to share a residential dorm</li> </ul>	
room unless alternative housing arrangements are impossible	
<ul> <li>Ensure at least 64 square feet of room space per resident</li> </ul>	
Reduce overall residential density to ensure sufficient space for	
the isolation of sick or potentially infected individuals, as	
necessary;	
<ul> <li>Configure common spaces to maximize physical distancing;</li> </ul>	
<ul> <li>Provide enhanced cleaning;</li> </ul>	
• Establish plans for the containment and isolation of on-campus	
cases, including consideration of PPE, food delivery, and	
bathroom needs.	
Exception	
□ They have a current and complete RSSL Blueprint and are complying	
with Sections 1-3 of the <i>Ready Schools, Safe Learners</i> guidance and	
any other applicable sections, including Section 2L of the <i>Ready</i>	
Schools, Safe Learners guidance.	
$\Box$ The school maintains a fully-closed residential campus (no	
non-essential visitors allowed), and normal day school operations are	
only offered remotely through distance learning.	
$\Box$ There have been no confirmed cases of COVID-19 among school staff	
or students in the past 14 days.	
$\hfill\square$ Less than 10% of staff, employees, or contracts (in total) are traveling	
to or from campus. Staff in this designation will:	
<ul> <li>Limit travel to essential functions.</li> </ul>	
<ul> <li>Carefully monitor their own health daily and avoid coming to</li> </ul>	
campus at any potential symptom of COVID-19.	
Any boarding students newly arriving to campus will either:	
<ul> <li>Complete a quarantine at home for 14 days (or current CDC</li> </ul>	
recommended time period) prior to traveling to the school, OR	
<ul> <li>Quarantine on campus for 14 days (or current CDC</li> </ul>	
recommended time period).	
$\Box$ Student transportation off-campus is limited to medical care.	

2m. SCHOOL EMERGENCY	PROCEDURES AND DRILLS
OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>In accordance with ORS 336.071 and OAR 581-022-2225 all schools</li> <li>(including those operating a Comprehensive Distance Learning model) are required to instruct students on emergency procedures. Schools that operate an On-Site or Hybrid model need to instruct and practice drills on emergency procedures so that students and staff can respond to emergencies.</li> <li>At least 30 minutes in each school month must be used to instruct students on the emergency procedures for fires, earthquakes (including tsunami drills in appropriate zones), and safety threats.</li> <li>Fire drills must be conducted monthly.</li> <li>Earthquake drills (including tsunami drills and instruction for schools in a tsunami hazard zone) must be conducted two times a year.</li> <li>Safety threats including procedures related to lockdown, lockout, shelter in place and evacuation and other appropriate actions to take when there is a threat to safety must be conducted two times a year.</li> <li>Drills can and should be carried out <u>as close as possible</u> to the</li> <li>procedures that would be used in an actual emergency. For example, a fire drill must be carried out with the same alerts and same routes as normal. If appropriate and practicable, COVID-19 physical</li> </ul>	<ul> <li>to eliminate congregating in common space.</li> <li>Multiple safety drills will be completed each month to ensure students in different cohorts have opportunities to participate.</li> <li>After the drill is complete, students will wash their hands with soap and water for 20 seconds or use hand sanitizer.</li> </ul>
Dage	

$\boxtimes$	distancing measures can be implemented, but only if they do not compromise the drill. When or if physical distancing must be compromised, drills must be completed in less than 15 minutes.
$\boxtimes$	Drills shall not be practiced unless they can be practiced correctly.
$\boxtimes$	Train staff on safety drills prior to students arriving on the first day on campus in hybrid or face-to-face engagement.
$\boxtimes$	If on a hybrid schedule, conduct multiple drills each month to ensure that all cohorts of students have opportunities to participate in drills (i.e., schedule on different cohort days throughout the year).
$\boxtimes$	Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol after a drill is complete.

	2n. SUPPORTING STUDENTS WHO ARE DYSREGULATED, ESC	ALATED, AND/OR EXHIBITING SELF-REGULATORY CHALLENGES
ОН	A/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$	Utilize the components of Collaborative Problem Solving or a similar framework to continually provide instruction and skill-building/training related to the student's demonstrated lagging skills. Take proactive/preventative steps to reduce antecedent events and	CLA works with our sponsoring school district, Eagle Point, on training and response to students exhibiting self-regulatory challenges. CLA employs a full-time family advocate who has gone to these trainings, builds connections with students, and intervenes when needed.
$\boxtimes$	triggers within the school environment.	CLA has identified cohort spaces for students to use when they are in need of a safe space to de-escalate and self-regulate.
	Be proactive in planning for known behavioral escalations (e.g., self-harm, spitting, scratching, biting, eloping, failure to maintain physical distance). Adjust antecedents where possible to minimize student and staff dysregulation. Recognize that there could be new and different antecedents and setting events with the additional requirements and expectations for the 2020-21 school year. Establish a proactive plan for daily routines designed to build self-regulation skills; self-regulation skill-building sessions can be	Staff trained on providing student support on daily routines and self-regulation and individual skill building daily within their classrooms.
	short (5-10 minutes), and should take place at times when the student is regulated and/or is not demonstrating challenging behaviors. Ensure all staff are trained to support de-escalation, provide lagging	
$\boxtimes$	skill instruction, and implement alternatives to restraint and seclusion.	
	<ul> <li>Ensure that staff are trained in effective, evidence-based methods fo developing and maintaining their own level of self-regulation and resilience to enable them to remain calm and able to support struggling students as well as colleagues.</li> <li>Plan for the impact of behavior mitigation strategies on public health and safety requirements: <ul> <li>Student elopes from area</li> <li>If staff need to intervene for student safety, staff should:</li> <li>Use empathetic and calming verbal interactions (i.e.</li> </ul> </li> </ul>	
	<ul> <li>"This seems hard right now. Help me understand How can I help?") to attempt to re-regulate the student without physical intervention.</li> <li>Use the least restrictive interventions possible to maintain physical safety for the student and staff.</li> <li>Wash hands after a close interaction.</li> <li>Note the interaction on the appropriate contact log.</li> <li>*If unexpected interaction with other stable cohorts occurs, those contacts must be noted in the appropriate contact logs.</li> <li>Student engages in behavior that requires them to be isolated</li> </ul>	
	from peers and results in a room clear. • If students leave the classroom:	

<ul> <li>Preplan for a clean and safe alternative space that</li> </ul>	
maintains physical safety for the student and staff	
<ul> <li>Ensure physical distancing and separation occur, to the</li> </ul>	
maximum extent possible.	
<ul> <li>Use the least restrictive interventions possible to</li> </ul>	
maintain physical safety for the student and staff.	
<ul> <li>Wash hands after a close interaction.</li> </ul>	
<ul> <li>Note the interaction on the appropriate contact log.</li> </ul>	
<ul> <li>*If unexpected interaction with other stable cohorts</li> </ul>	
occurs, those contacts must be noted in the appropriate	
contact logs.	
Student engages in physically aggressive behaviors that preclude	
the possibility of maintaining physical distance and/or require	
physical de-escalation or intervention techniques other than	
restraint or seclusion (e.g., hitting, biting, spitting, kicking,	
self-injurious behavior).	
• If staff need to intervene for student safety, staff should:	
Maintain student dignity throughout and following the	
incident.	
• Use empathetic and calming verbal interactions (i.e.	
"This seems hard right now. Help me understand	
How can I help?") to attempt to re-regulate the	
student without physical intervention.	
<ul> <li>Use the least restrictive interventions possible to</li> </ul>	
maintain physical safety for the student and staff	
<ul> <li>Wash hands after a close interaction.</li> <li>Note the interaction on the appropriate contact log</li> </ul>	
<ul> <li>Note the interaction on the appropriate contact log.</li> <li>*If unexpected interaction with other stable cohorts occurs, those</li> </ul>	
contacts must be noted in the appropriate contact logs.	
Ensure that spaces that are unexpectedly used to deescalate	
☑ behaviors are appropriately cleaned and sanitized after use before the introduction of other stable scherte to that space	
the introduction of other stable cohorts to that space.	

# 20. PROTECTIVE PHYSICAL INTERVENTION

ybrid/Onsite Plan
A does not use reusable PPE equipment. All PPE equipment is designed r single use. Once PPE equipment has been used it will be properly sposed of.
A r :

# **3.** Response to Outbreak

# **3a. PREVENTION AND PLANNING**

OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>Review the "Planning for COVID-19 Scenarios in Schools" toolkit.</li> <li>Coordinate with Local Public Health Authority (LPHA) to establish</li> <li>communication channels related to current transmission level.</li> </ul>	<ul> <li>CLA will establish a School COVID Mitigation Team which includes at minimum the host school district (Eagle Point School District 9 - EPSD9) District Nurse, the Executive Director, the Curriculum Director and the Business/HR Director with defined team member roles and contact information.</li> <li>CLA will share School COVID Mitigation Team member names and contact information with LPHA.</li> <li>CLA will identify baseline absentee rates in order to determine if rates have increased by 10% or more at any given time.</li> </ul>

CLA will notify EPSD9 District Nurse when rates each threshold. <ul> <li>The District Nurse will review data, evaluate illness symptoms for</li> </ul>
absenteeism, and notify LPHA if COVID-19 symptoms are present, if
there is a common set of symptoms relating to increased absenteeism, or if there are any confirmed COVID-19 cases among students or staff.
The District Nurse will notify the School Mitigation Team.
District Nurse and Administrative Directors will collaborate with LPHA
and follow their direction to determine next steps which may include:
o Parent/guardian communications
o Potential exposure notifications
o Temporary student exclusions
o Temporary school or cohort exclusions
o Modification or cancellation of school events
o School closure
The LPHA will recommend in-person school closures or
restrictions, as they learn about new cases.

3b. RESPONSE		
OHA/ODE Requirements	Hybrid/Onsite Plan	
<ul> <li>Review and utilize the "Planning for COVID-19 Scenarios in Schools"</li> <li>is toolkit.</li> <li>Ensure continuous services and implement Comprehensive Distance</li> <li>Learning.</li> <li>Continue to provide meals for students.</li> </ul>	<ul> <li>In response to an outbreak of COVID, CLA will follow the School Communicable Disease Plan (available online), collaborate with LPHA, and follow LPHA guidance.</li> <li>In the event of a closure, CLA will initiate short-term school closure with Distance Learning for All and continued food services.</li> <li>CLA events will be modified, postponed, or cancelled as coordinated with the LPHA.</li> <li>The School Director Team with the District Nurse and LPHA will convene to develop clear communication regarding the criteria which must be met in order for on-site instruction to resume.</li> <li>For Suspected or Known Individual or Family COVID-19 Cases:</li> <li>The District Nurse will be immediately notified by CLA or via LPHA.</li> <li>If notified by CLA, District Nurse will contact family and health care provider, if appropriate, to gather data and contact LPHA</li> <li>If notified by LPHA, the District Nurse will notify School Districts, and collaborate with LPHA, providing log sheets, attendance information, and potential contact information to LPHA</li> <li>following their direction to determine next steps as listed above.</li> <li>Every effort will be made to maintain student confidentiality.</li> <li>For Regional Impact</li> <li>The School COVID Mitigation Team inclusive of District Nurse, Executive Director, Director of Curriculum, and Director of Business &amp; HR will collaborate with LPHA to determine and address any steps needed under the direction of the LPHA.</li> </ul>	

# 3c. RECOVERY AND REENTRY

OHA/ODE Requirements	Hybrid/Onsite Plan
<ul> <li>toolkit.</li> <li>Clean, sanitize, and disinfect surfaces (e.g. door handles, sink</li> <li>handles, drinking fountains, transport vehicles) and follow <u>CDC</u></li> <li>guidance for classrooms, cafeteria settings, restrooms, and</li> </ul>	<ul> <li>Plans for hybrid learning and off-site only learning will allow CLA to move to off-site distance learning in the event of school closure.</li> <li>If school closure is advised by the LPHA, consultation will occur between legal, union, and district administration to ensure processes are consistent with legal preparedness processes.</li> <li>CLA will follow LPHA guidance regarding the return of students and staff for on- site instruction.</li> <li>CLA will communicate with families about options and efforts to support returning to hybrid learning and share estimated timeline for re-opening.</li> </ul>
<ul> <li>When bringing students back into On-Site or Hybrid instruction,</li> <li>⊠ consider smaller groups, cohorts, and rotating schedules to allow for a safe return to schools.</li> </ul>	

CLA will consult with LPHA for guidance on cleaning, sanitizing and disinfecting surfaces and follow CDC guidance for classrooms, cafeteria settings, restrooms, and playgrounds before re-opening.

ASSURANCES

This section must be completed by any public school that is providing instruction through On-Site or Hybrid Instructional Models. Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance. This section does not apply to private schools.

- We affirm that, in addition to meeting the requirements as outlined above, our school plan has met the collective requirements from ODE/OHA guidance related to the 2020-21 school year, including but not limited to requirements from:
  - Sections 4, 5, 6, 7, and 8 of the *Ready Schools, Safe Learners* guidance,
  - The <u>Comprehensive Distance Learning</u> guidance,
  - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
  - Planning for COVID-19 Scenarios in Schools
- We affirm that we cannot meet all of the collective requirements from ODE/OHA guidance related to the 2020-21 school year from:
  - Sections 4, 5, 6, 7, and 8 of the *Ready Schools, Safe Learners* guidance,
  - The Comprehensive Distance Learning guidance,
  - The Ensuring Equity and Access: Aligning Federal and State Requirements guidance, and
  - Planning for COVID-19 Scenarios in Schools

We will continue to work towards meeting them and have noted and addressed which requirement(s) we are unable to meet in the table titled "Assurance Compliance and Timeline" below.

Assurance Compliance and Timeline If a district/school cannot meet the requirements from the sections above, provide a plan and timeline to meet the requirement.

List Requirement(s) Not Met	<b>Provide a Plan and Timeline to Meet Requirements</b> Include how/why the school is currently unable to meet them
