School Year	2024-2025
School	Hillside Elementary School

School Direction Section

Vision	Hillside Elementary provides meaningful instruction with high expectations by incorporating innovative thinking and technology to actively engage all students. The success of our students is supported by effective leadership and highly qualified educators in partnership with families and our school community to provide each child the skills for college, career, and life.
Mission	The Hillside Team ensures the success of every student through intentional instruction every day in class.

Comprehensive Needs Assessment Summary

What data did our team examine? ORIS, OSAS Historical data, STAR historical data, iReady diagnostic and Growth Monitoring Data, discipline summary, survey data.

How did the team examine the different needs of all learner groups? Demographic data was considered when reviewing historical data. Variance according to grade level and demographics were considered.

How were inequities in student outcomes examined and brought forward in planning? There was a noticeable increase in negative referral data for male students. Some of this variance can be attributed to a few “high flyers”.

What needs did our data review elevate? The data revealed lower than state average performance in academic areas. It also revealed a need to better support self-regulation especially in the area of physical aggression. ORIS revealed a strong need to increase stakeholder engagement as well as provide ongoing professional development in target areas.

How were stakeholders involved in the needs assessment process? Representatives from every grade level along with a classified employee took the needs survey after reviewing the most recent data. The ORIS Needs Assessment domain averages were scored using the ORIS Systems Health Score Summary Sheet for Tracking Trends. The team decided on which indicators to address for our goals.

Which needs will become priority improvement areas?

Improve stakeholder engagement and partnerships;

Improve inclusive practice by removing barriers using intentional instruction of SEL curriculum and aligning behavior support systems and individual discipline practices;

Improve student performance so that all students meet growth targets.

Note: Priorities describe where the team intends to go but do not describe how the team will get there. An example priority might be to improve graduation rates or that all students will meet their growth goals.

Long Term School Goals & Metrics

All or some school goals may match district goals

Student Focused, aspirational, aligned with needs, written for all students

Example: *All students will meet their annual growth targets in math.*

Metrics are outlined for the year(s) to come.

School Plan Self-Monitoring Routines

Please describe the school plan to install quarterly plan-review/monitoring routines (see example below):

The Leadership team will meet monthly to review progress and assure future action items are met using the suggested routine and chart below. Additionally, PBIS Team Attendance Teams meet monthly to support data analysis and action planning to meet the CIP goals.

Goal 1 Partially Met in 22/23

Goal 2 Met 22/23

Goal 3 Not Met in 22/23 Need for Tier 2 supports, solid Tier 1 supports and compliance. Due to the new behavior system at EPD9 Year 1 data was a baseline and could not accurately be compared to previous year data

Goal 1 Exceeded 23/24

Goal 2: In Progress 23/24

Goal 3: Not Met Personnel

Routine Example:

The chart below does not need to be completed prior to installation of school self-monitoring routines. It is placed here as a preview for the types of information a quarterly self-monitoring routine aims to answer and the subsequent steps and actions taken after each routine.

- What did we say we were going to do?
- How are we doing?
- How do we know?
- What will we do next?

	Update Date	Strategy	What does your evidence show?	What is working? What is not?	What will you do? What adjustments are needed?	What supports are being provided? Are they helpful? What more is needed?
